

KENTRURALCAREERS

GROWING KENT'S FUTURE

Kent Rural Careers App and website is a hub of information provided by experts so you can search and find possible career paths. There is a huge range of industries, from research and development, production, manufacturing, marketing and finally retail.

You may not realise that you have many choices for careers and jobs that are associated with food and farming. The app and website will help you navigate the opportunities, salary ranges, skills and qualifications you may need or have already.

Farming supports 1 in 7 jobs and Kent Rural Plc has identified that this is 85,000 jobs in Kent. Have a look and see if the perfect job is there for you.

This project is brought to you by Rural Plc (Kent), in association with the Kent County Council and in partnership with Hadlow College, Chavereys Chartered Accountants, BTF Partnership and Barclays
